Experience

Member of Technical Staff (MTS) Sep 2025 – Apr 2026

W3grads.com *GLAU, Mathura, India*

- Provided technical support and software troubleshooting for university students in computer laboratories.
- Supported software installation and configuration for academic laboratory activities.
- Conducted practical sessions on Linux, programming, and computer science fundamentals.

IT Intern Feb 2025 – Aug 2025

Electronics Regional Testing Laboratory *Delhi, India*

- Studied GIGW guidelines, OWASP security practices, and software performance and usability requirements.
- Gained hands-on experience in standardization testing and quality certification processes.
- Conducted project-based software and Internet of Things (IoT) testing at ERTL.

Skills

Programming Languages: Java, SQL, Rust

Backend Development: Spring Boot, Spring MVC, Spring Data JPA, Spring Cache, RESTful APIs, CRUD Operations

Microservices: Spring Cloud Netflix Eureka, OpenFeign, Service Registration and Discovery, Inter-Service Communication

Frontend & Desktop: React.js, Tauri v2, Win32 API Integration

Databases: MySQL, MongoDB

Developer Tools & DevOps: Git, GitHub, Docker, Kubernetes, Jenkins, Amazon Web Services (AWS), Postman, VS Code, Linux

Core Concepts: Object-Oriented Programming (OOP), Data Structures and Algorithms (DSA), DBMS, MVC Architecture, Microservices Architecture, Computer Networks

Projects

Porthunt – Port and Process Management Tool

Tech Stack: Rust, Tauri v2, React.js, Win32 API *GitHub Link*

- Built a Windows desktop application with Rust, Tauri v2, and React.js to identify port conflicts across services.
- Integrated Win32 APIs to manage user processes and Windows services through a graphical interface.
- Restricted system-process modification within the application and enabled management without terminal commands.
- Distributed Windows builds through GitHub Releases.

easyMed Aug 2026

Tech Stack: Java, Spring Boot, Spring Cloud Netflix Eureka, OpenFeign *GitHub Link*

- Developed a Java and Spring Boot microservices application with separate consumer and provider services.
- Used OpenFeign clients to call provider REST APIs by service name instead of hard-coded host URLs.
- Registered both services with a Eureka server to support service discovery and inter-service communication.

Education

Dr. APJ Abdul Kalam Technical University Lucknow, UP

Bachelor of Technology in Computer Science – CGPA: 8/10 *Aug 2021 – Jul 2025*

Kisan Inter College Basti, UP

Class XII – Physics, Chemistry, Mathematics – 78% *Jul 2019 – Jun 2020*

Certifications

- **Linux Essentials** – Cisco (Issued Jan 2024) – View Certificate
- **Generative AI Credentials** – Skillsoft / Accenture Academy (Issued Aug 2026) – View Credentials
- **Cloud Credentials** – Google Cloud Academy (Issued Sep 2025) – View Credentials
- **Digital Badges** – Hosted on Credly (Mar 2024) – View Badges
- **Speaking Effectively** – IIT Kharagpur (Issued Mar 2024) – View Certificate
